

Forklift Spreader Bar

Forklift Spreader Bars - Proudly operating ever since nineteen seventy four, ELME Spreader AB is the largest independent spreader manufacturer in the globe. They have been a devoted maker of spreaders designed for different applications such as the swop bodies, trailers and handling of containers.

Engineering is done in house by making use of all of the newest CAD systems and FEM tools. The ELME business now has more than 125 staff members. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers across the globe.

The ELME product series offers spreaders utilized for several trailer and container handling operations. Some of their inventory consist of: Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers plus a wide range of additional parts.

Manufacturing and production of ELME products are established in highly automated purpose built factory. In the year 2008, they created one thousand one hundred fifty spreaders by way of making use of quality components to ensure dependability and excellent standards. Major features of ELME comprise design simplicity, market reaction and inventive modular spreader concept.
