

Rockwell Parts

Rockwell Parts - The company of AxleTech International is a big supplier of specialty vehicle drive-train systems and components together with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to meet and exceed their customers' expectations for quality, service, technology and delivery. They believe in working in an environment which supports the highest integrity with empowered collaboration, along with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great importance on being an environmentally conscious business and offering a safe atmosphere for their staff to work in. Additionally, they have applied many programs in the corporation to be able to help articulate these values within their business policy. AxleTech happily shares this policy and welcomes interested parties to offer them with any questions or comments, as they are happy to promote and share this policy with a greater understanding of their efforts. They are really dedicated to preserving and improving the natural world. AxleTech has an EHS program that not only protects the natural environment but which also actively protects their staff and neighbors also.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in designing and manufacturing planetary axles for both military and commercial applications. These applications vary from construction equipment to airport ground support. AxleTech specifically designs axles to meet particular application demands. They have more than one thousand various axle specs within their existing offering. With more than 100+ years of experience and history, AxleTech proudly supplies the most complete solution for whichever of your axle requirements. The company is well known in many commercial and military applications. They offer complete axle assemblies for aftermarket replacement requirements, along with servicing axle needs for OE production. Their high mobility ISAS have added details that can be found in the "ISAS" product selection.
