

Concrete Hoppers

Concrete Hopper - This attachment is a self-dumping hopper that automatically starts to dump when bumper release touches the side of a dumpster. As soon as dumping is done, the hopper goes back to an upright and locked position. This particular piece of equipment is even accessible along with a cable that allows operation from the seat of the lift truck to be able to have the alternative of manually unloading the hopper. There is a locking chain provided in order to secure the hopper to the fork truck. This product is constructed with consistent and reliable robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish so as to maintain durability.
