

Meritor Part

Meritor Parts - Meritor is a leading international supplier that is proudly built on a one hundred year tradition of quality and service. They specialize in different modules, integrated systems and parts to original machine manufacturers and the aftermarket for the industrial and transportation trades.

Meritor prides itself in the company's distinctive energy and believes that this particular energy contributes to their competitive advantage within the international operations. The company values their clients and wants to ensure their success while anticipating their different requirements. Meritor starts with a tradition that values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring over 11,200 individuals, Meritor encourages innovation and collaboration among a team of knowledgeable professionals.

Meritor strongly believes in just hiring future focused individuals. These top-caliber individuals can rapidly get used to to changing surroundings and freely exhibit the level of commitment and performance necessary in order to attain results for the competitive market environment. The company empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor provides their workers various possibilities for personal and professional development.

Their Advanced Engineering team is at the forefront of parts and system engineering that comprise drivelines, axles, suspension and braking systems used for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the entire Asia Pacific region. This team is even responsible for supporting the requirements of all their international engineering staff.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated all around the world in 19 countries and in 5 different continents.

They have their supplier network that is particularly situated in order to support the development of the business. Each regional team has internationally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making within each and every aspect of the trade. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is also included transactional Green Belts who utilize Six Sigma tools to business processes and apply lean methods.
