

## Clark Forklift Part

Clark Forklift Parts - Performing worldwide, there are currently 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those operating in North America. Clark has five major lines of forklifts across the globe, making it one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specialized parts fabricated for 20 exclusive brands of forklifts and automated equipment. Your regional Clark Supplier is your total source for availability of all your parts needs offered by Clark Totalift.

Clark's exceptional Parts Distribution Centers are conveniently located in Louisville, Kentucky, which serves both their clients and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing efficiency and benefiting performance.

Clark Totalift has a really amazing global support network. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the material handling industry.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional commitment to safety is currently a customary feature on every forklift.

Clark's relentless effort to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift maker across the world to be certified with the internationally approved quality standard ISO 9001 for every one of their production facilities. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental limitations, thus placing them in a prevailing market position.

Clark has chosen the particularly economical and beneficial structure of "Lean Manufacturing" for its assembly plants and application of resources. This structure was developed to acknowledge the most successful method of production plant management and ensuring maximum proficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working together, Clark's product suppliers and engineers communicate towards improving product proficiency while minimizing expenses. The contemporary value engineering agenda combines progressive product improvement and offers improved client support and service within the industry.
